

Role-Based Discussion: Return to Work Coordinators/Nurse Navigators/TA Liaisons

Guiding Questions: Return to Work Coordinators/Nurse Navigators/TA Liaisons

- What competencies or skills have been the most relevant to your role so far? In what ways do these competencies affect the work?
- In the context of RETAIN, what type of professional development opportunities have you had related to the skills most relevant to your role? How effective have these opportunities been?
- What tools and resources have helped you the most? Looking forward, what other tools and resources might be helpful?

Role-Based Discussion: Health Care Representatives and Partners

Guiding Questions: Health Care Representatives and Partners

- As health care partners in the RETAIN programs, how do you or other members of your team evaluate the functional abilities of RETAIN participants in their work and other activities of daily living? What information do you collect and from whom?
- Do you engage employers to discuss patient functionality, including any necessary accommodations or work limitations? If so, what strategies have you used to engage employers?
- What are the major challenges in assessing a participant's functional abilities at work? What approaches have helped to address these challenges?
- How does your lens as a provider help inform collaborative partnerships between participants, RTW case managers, employers, and other program partners?

Role-Based Discussion: State Directors

Guiding Questions: State Directors

- Were there any insights from the opening sessions on how to leverage or implement programmatic or state-level policies regarding accommodations?
- In what ways, if any, have your program partners leveraged existing initiatives in your state to support accommodations in the workplace?
- What are the programmatic and state-level policy priorities you are currently focused on? Why these priorities?
- What are the major challenges you anticipate facing in your state-level policy priorities? What strategies have you used to overcome these challenges?

Role-Based Discussion: Evaluations Liaisons and Data Staff

Guiding Questions: Evaluations Liaisons and Data Staff

- How have you been exploring the use of data for evaluation and sustainability planning in RETAIN? If so, in what ways?
- How can you leverage the data already collected for program assessment and sustainability for the long-term?
- What external or unexpected factors have changed or interrupted your evaluation and/or day-to-day implementation approaches for RETAIN? How were you able to resolve these interruptions?
- In what ways do you coordinate and collaborate with the RETAIN team to collect data related to evaluation and sustainability planning?
- What are the major challenges to collecting data for evaluation and sustainability planning in RETAIN? What strategies do you use to overcome these challenges?

Role-Based Discussion: Workforce, Business Development, and Community Engagement Representatives

Guiding Questions: Workforce, Business Development, and Community Engagement Representatives

- What from the panel discussion on accommodations resonated with you?
- In what ways do you collaborate with RETAIN partners/or as a RETAIN partner to ensure participants have the accommodations they need?
- What are the major barriers to providing accommodations to RETAIN participants specific to your role? What strategies do you use to overcome these barriers?
